### *The Boy with the Incredible Glasses – Chapter 20*

"Joey will you please get up for school, Now!" Mom yelled for the third time. I knew it was Wednesday and I didn't want to go to school today. I didn't even have a morning hard on, which was very unusual.

I slithered out of bed and headed for the shower and even that didn't waken me up. I so wanted to stay home with the builders again and forget the comp shop guy.

I dressed, knowing there was no way mom would let me stay off again and I *had* promised Ry that I would be there for him, so I forced myself downstairs for breakfast.

Mom shot past me in the hallway. "There you are sleepy head," she said smiling at me, then she kissed me and she was gone.

Andy was already eating breakfast like a zombie as always. He is so not a morning person. We exchanged grunts and I ate some toast and gulped down a glass of fresh orange juice.

I noticed that Sam was already there and they were making good progress with the new deck. I wandered out to see him. I was wearing my special glasses so when he straightened up I could see that he was pleased to see me! His cock was solid in his pants and suddenly mine jumped up and rejoined the world!

"Hey Joey!" He said smiling at me, his grey eyes sparkling in the morning sunshine. "How's you today?"

"I'm great thanks," I said lying. But I did actually feel better since seeing him. "I see you are up early!" I said cheekily. He blushed and ran his hand across the obvious bulge in his old 501s to shift his 'problem'.

"That's your fault," he said, and then added, "don't suppose we could get together later today for some fun, maybe after school? I'm here all alone today."

"Shit! Sorry I can't. I have an appointment after school today so I won't be back here until much later, but I *do* want another session with you soon," I said, my ass twitching at the thought.

I said goodbye and locked the house and Andy and I headed off to school on our bikes.

The school day dragged and eventually Ry and I were on our way to the Lapshop and our fate with the comp guy. I felt good to be there for my friend, he needed my support and at least he would have a witness to whatever was going to happen. I quivered at the thought.

I completely forgot to tell David that I wouldn't be there for my maths session with him after school. What a dickhead I was. At 4.30pm he arrived at my house and rang the doorbell. There was no answer.

He was just about to leave when Sam appeared around the side of the house and told David that no one was at home.

"I guessed that," he said feeling dejected that I hadn't told him about a change of plan.

"Joey did say he had an appointment after school 'cause I wanted to see him as well, but he couldn't make it today," Sam explained.

"I'm David," the boy said holding out his hand to the builder, "I help Joey with his maths he explained.

"I'm Sam," said the boy taking David's hand and shaking it firmly.

David shuddered as he felt the slight roughness of Sam's hand against the softness of his own. It sent a fresh jolt to his cock.

"That's cool," David said smiling at the gorgeous builder standing in front of him. He wondered what he would look like naked and what his cock was like. Was he cut or uncut. He was lost in his dreams about Sam when the builder's boy spoke.

"Come around the back with me and wait if you want, maybe he won't be too long and you can keep me company while I work," he said grinning at the tall gawky boy who stood there with a folder under his arm.

"I guess I could wait for a while, I've no other plans so I'll take you up on that thanks," he said; keen to be close to this handsome boy.

David sat down on a sun lounger close to where Sam was working, cutting timber into measured lengths ready for the construction of the deck.

"It's 99% preparation," Sam said as he cut another piece of timber from a longer length. "Maybe you could hold this for me?" He added, and David shot up and was by his side in an instant.

He stood close to the builder boy who had removed his shirt in the late afternoon sunshine. David was so close to Sam that he could smell his scent, a mix of fresh sweat and his soap, probably. But mostly fresh sweat, which acted like an aphrodisiac on him. Sam explained what he wanted David to do and in doing so he put his rough hand on top of David's smooth one to show him how exactly he wanted it held.

David's cock was solid in his shorts and because of his cock size he couldn't do anything about the obvious tent that he was now showing. He was so aroused and had really been looking forward to a session with me.

David held the timber as instructed, and standing behind Sam, the boy started the power saw and they fed the timber through the blade steadily. Piece after piece dropped on the floor to join the pile of pre-cut timber there. As he held the timber against his crotch David could feel the strong vibrations coursing through his already hard cock and he almost came. He was very relieved when Sam turned the saw off finally and the timber was all cut. He stood

there, his large cock showing in his pants and a wet spot growing where his cock head sat. Sam turned around and saw his predicament.

"Wow the saw does that to me sometimes," he said smiling at David. "Just cant help it, it feels so good against my cock," he added, his voice lower and huskier.

They stood facing each other for what seemed like ages, but in reality it was only a few seconds then Sam's hand moved across the short distance between them and he placed his coarse palm against the huge bulge in David's shorts. David jumped as he felt the heat of Sam's hand on his cock through the thin material. He had been daring today by not wearing any underwear and he had fought the constant problem of spontaneous erections all day. In fact he had to visit the toilet frequently between classes to dry off his leaking cock.

Sam continued to rub David's large bulge and finally David leaned across and did the same to the young builder. He could feel the shape and size of Sam's hard cock clearly through his 501s and he was sure the boy was also naked under his jeans.

"Let's go to the garage, I have a key," Sam said breathlessly, breaking the silence between them. He took David's arm and pulled him along to the side door of the empty garage and they moved inside and closed the door behind them. Sam pulled down an old blanket from a shelf, shook off the dust and laid it out on the floor, then quickly was back in front of the maths nerd feeling his large cock through the damp shorts. David stood amazed that this beautiful handsome boy would even look at him, but they were both very horny and in the same place at the same time so to hell with it, they simply wanted each other.

Sam fumbled with the top button of David's shorts then quickly unzipped the fly, which caused the maths genius to lose his shorts. They dropped down his thighs and ended up in a crumpled heap at his feet. His large cock dropped forward as it lost its support and hit Sam on the cheek.

"Oh yessss, that's a cracker!" Said Sam, almost to himself, as he took hold of David's impressive cock. He slid the foreskin forward over the large pink head and a drop of clear precum formed on the tip of the boy's cock. Sam lapped it up then, opening his mouth as wide as he could, he managed to get it into his mouth. David groaned with pleasure as he felt the boy builder's hot mouth envelope his hard cock and he stumbled and almost fell over.

"Why don't we get down on the blanket? I don't want you to fall and hurt yourself," Sam said pulling off the boy's cock head.

David nodded agreement and slipped off his shirt, tossing it aside and then before he lay down he put his hands under Sam's damp armpits and pulled him upright so they stood facing each other again.

"May I?" whispered David, as he indicated Sam's 501s. Sam nodded agreement and stood waiting.

David's fingers were all thumbs as he tried to undo the top button of the well-worn jeans. Finally it opened and he took the tab. He slowly slid the zipper down to the bottom. He could feel Sam's hard cock against his fingers as he unzipped the boy's pants. The jeans fly separated and David could see the boy's black pubic hair and the base of his cock, which disappeared like a snake down into his pants. David knelt down in front of his handsome young builder.

He reached up and took the waistband of the boy's jeans and tugged them downwards, sliding them down Sam's golden thighs. The boy had an overall deep suntan, no white bits at all; even his cock shaft had a deep tanned colour. Sam's jeans were off and his cock pulsed in front of David's mouth. He sucked it in, holding the shaft with his hand.

The boy tasted musky and ripe, his cock had faint remnants of pee on it and the sweat of a hard day's work, all gathered under the foreskin and on the pink shiny head. David licked and sucked the head and gently wanked the boy's hard cock. He slipped it out of his mouth and examined it. It was a nice cock. It looked so good to David. It was long, not as long or as thick as his, but long and thick enough, he thought, as he examined it close up then he popped it back into his mouth for a further taste.

Sam was moaning now. He had so wanted to fuck me again but when I said I had an appointment he was really disappointed and had tried to have a wank a couple of times during the day, but he was always interrupted, so he was as horny as hell by the time David appeared.

They swapped places. Sam once again knelt before David's large cock, which looked even bigger close up and sticking out of David's slim body. He sucked the large cockhead in and tried to slide down the shaft as far as he could. Because it was so thick he only managed about half way but he seemed to be getting a good result even so, as David moaned and stumbled again.

They lay down in a sixty-nine position and David swallowed Sam's cock into his mouth and played with the builder boy's sweaty balls. He dove in and nuzzled his ballsac, smelling the ripe aroma of a sweaty crotch.

David felt his balls being sucked and his cock wanked as Sam reciprocated. He gasped as Sam placed his hot mouth over his clean ass hole. David had showered before coming over for my lesson so his ass smelled of shower soap. Sam poked his tongue in deep, twisting it and shaping it into a hard point so he could probe as deeply as possible. David gasped as he felt the pleasurable intrusion. It felt awesome.

"Can I fuck you David, please?" Sam asked, sounding breathless. He wanted to put his cock deep inside this boy's ass and fuck him hard.

"Yes! I want that," David answered. He rolled over onto his back and Sam moved up between his legs taking his ankles and lifting them to his shoulders, which exposed the boy's small pink hole to the air.

Sam recovered his jeans and fished a small plastic bottle of lube from one of the pockets. 'Be prepared' was his motto! He then moved up and lubed David's hole and applied some of the sticky goo to his cock. Finally he moved his cock head up to David's ass hole and pushed it in with his weight behind him. David exhaled loudly as Sam's thick cock squeezed slowly past the incredibly tight sphincters and then suddenly it was inside him, filling his ass.

"Wow that feels amazing. Hold a sec please it's painful!" David said breathlessly. "Please take it slowly, please," he pleaded.

Sam stopped pushing and held still until slowly David's ass became used to the intrusion. He moved forward gently, but only after David had said he could and then his cock was all in. David could feel Sam's wiry pubic hair and his balls against his ass cheeks. It felt like he was completely full up inside, but as Sam moved his cockhead it connected with David's prostate and sent a sharp jolt of pleasure through the maths tutor's body, causing him to yelp with an unexpected thrill.

"Wow that's fucking awesome!!" He hissed through his clenched teeth. "Keep doing that Sam, please don't stop, OK?"

The boys were completely lost in their pleasure and failed to notice that they had a spy watching everything that they were doing.

My brother Andy had arrived home from school and he knew that I would be late because of my meeting with Ry and the comp shop guy. His plan was for a leisurely wank in his room but as always he headed first for the 'fridge for some food to take up to his room.

He noticed that the builder's tools were lying around in the garden and his mom had insisted that everything should be locked in the garage in case anyone stole them or used them to break in. Cursing to himself, he decided that for a quiet life he should move them and then he could do his two favourite things – eat and wank!

He moved out into the garden and noticed that there were a lot of tools lying around, so maybe Sam or Josh was still around. He decided to have a look and if they were there, *they* could do the tidying up and he could get back to the important things in life.

He wandered around towards the garage and he thought that he heard someone, so he moved more quickly to the side door of the large garage. The top half of the door was glass and although it was very dusty, he could see through it easily. His jaw dropped open when he saw what was going on inside. Sam was fucking David hard and they were both naked in the garage. Wowee!!

He stayed put and watched, his eyes wide and his boy cock hardening in his pants.

Sam continued to plow David's ass hole, slamming deep into the boy then pulling almost all the way out. Sam had David's cock in his hand and was wanking it as he fucked him and David lay there moaning with pleasure his eyes tightly shut.

Andy's cock was solid in his pants, so he quickly dropped them to his ankles and pulled his briefs down letting his cock bounce free. He started to wank it quickly as he watched the horny scene in front of him. It was hot. His boy cock was straining at its maximum 4", the plump pink head disappeared and reappeared rapidly as he slid his long loose foreskin over it. His cockhead was slick with precum as he wanked. He clenched his bubble butt as he masturbated and a sheen of sweat formed on his face in the early evening heat.

Josh arrived back just then to check on Sam and to take him home, as well as drop off some new materials for the job. He had been away most of the day on other work and he knew he could trust his boy to work hard, but as he entered the rear garden Sam was nowhere to be seen.

His tools were still lying around and there were clear signs that he had been working, but where was he? Josh guessed that perhaps he was over at the garage, which was in a sheltered part of the garden, hidden from the house by hedges and bushes, so he followed the path there humming to himself as he went.

Josh stopped dead in his tracks as he rounded the last large bush before the garage and saw Andy's cute, naked bubble butt in front of him and it was obvious that the boy was wanking, as well as watching something very interesting inside the garage. He decided to creep up on the boy and see what it was that was making the young boy so horny.

Sam slowed his fucking and took long effortless strokes in and out of his lover's ass. He looked down and saw his slick cock shaft sliding in and out of David's red, puffy hole, which was clamped tightly around his penis. He could also see David's balls jiggling in their loose sac as he fucked him and the boy's large cock was lying on his belly easily reaching his belly button, which was filled with clear thick precum.

Sam took the boys cock in his hand and wanked it again running his thumb over the boys cock head smearing it with the thick, home-made lube. David gasped.

"Wow Sam take it easy or I'll shoot. I don't wanna shoot just yet. Keep fucking me hard!" He said breathlessly.

"You bet I will," Sam hissed, and thrust harder and faster into the boy's very tight hole, causing David to groan with pleasure.

Andy was so close but he didn't want to cum until he saw David's large cock shoot its cum. He knew it would be something to see. He was in awe of the boy's cock size. He looked down as he played slowly with his small cock and wistfully wondered how long his cock would end up being when he was older.

Andy never heard Josh come up behind him, but what he did feel was Josh's hard cock slide between his ass cheeks as the man put his arms around the boy and placed a hand gently over his mouth.

"Shhhhh Andy it's me Josh the builder don't worry I'm not gonna hurt you OK? Don't scream please," he said in a whisper.

"Please don't fuck me Josh I've never had a cock in me it would hurt me, please!" he whispered back sounding desperate.

Josh laughed quietly, his eyes on the action in the garage. "Don't worry Andy I'm not gonna fuck you, but we can have some fun if you like?" He asked the startled boy.

Andy just nodded his head and looked down at his deflated cock, which had lost its erection when Josh had come up behind him. He could feel the man's hard cock between his ass cheeks and it felt big, but it was so horny so he pushed back onto it. He could smell the builder's sweat as he leaned his head back against the man.

Josh leaned over the small boy and ran his hands down the boy's chest then up again inside his school polo shirt. He could feel the boy pushing back onto his cock between his cute ass cheeks. He moved down the boy's front again to his hardening cock and he grasped it in his rough fingers and started to wank it slowly. The boy sagged against him and groaned quietly.

Josh moved and let the boy's cock go. He dropped to his knees behind the boy who was momentarily confused, and parting his butt cheeks he dove in and docked his mouth on the boy's musky ass hole. Andy groaned loudly and gave himself up to the new sensations that he was experiencing at his hole. He grabbed his own cock and started to wank it again. It was slick with his juices, so the skin slid easily over the glossy pink head.

Josh brought his hands around the boys front again and took over wanking his cock, timing it with what he was doing with his mouth on the boy's ass hole, creating a symphony of sheer pleasure in Andy's small body.

Sam yelled that he was getting very close to cumming and David grunted something, which Sam strained to hear. "Sam take your cock out of my ass and shoot all over me, please," he repeated a little more clearly the second time he'd said it. Sam nodded his understanding.

David wanked his long cock, his hand flashing over his shaft which looked even more swollen than before and just then Sam pulled out of David's ass leaving it gaping wide open. He started to shoot all over David's body, hitting his face, neck and covering his chest with thick white strings of boy cum. David's long cock erupted as Sam finished, and his spunk shot over his head landing on the dusty garage floor leaving a white spatter of his cum in the dust, the rest merged with Sam's cum on his chest and belly.

Sam fell forward on David's body and he kissed the maths tutor long and sweetly, David's arms came up over the boy builder's back, hugging him close, their bodies bonded together with their combined cum and sweat.

They lay glued together for ages, exhausted in the heat of the garage, their young bodies slick with sweat, their hair plastered down on their heads, sexually satisfied – for now!

Andy was overwhelmed, his ass was on fire with Josh's hot tongue and the builder's calloused hand flew over his small, hard cock and suddenly Andy yelled and started to shoot thin strings of cum against the garage door. He literally collapsed back onto Josh who had to stop rimming him to support his body or he would have fallen over.

Sam moved up quickly as he heard Andy's shout, David had heard it too and was equally scared of who it might be. They glanced at the garage door and could see no one because Andy was lying on top of Josh on the ground. The builder's cock was once again resting between Andy's naked ass cheeks and the boy lay there, comfortably relaxing after his amazing cum.

The garage door bust open and Sam emerged, still getting dressed, followed by David who was doing the same thing and they both almost fell over Andy and Josh lying on the ground just outside the door.

There was a split second of silence then they all burst out laughing, mainly in relief when they saw who was there. Sam assisted Andy to stand up and then Josh stood, his hard cock pointing out in front of him and the three boys looked at his cock then each other and Sam and Andy fell to their knees in front of the builder and started to suck and lick his hard penis. David wanted his ass so he moved round behind Josh and spreading his ass cheeks, clamped his mouth on the builder's sweaty ass hole. Josh gasped as he experienced the combined pleasures of being rimmed by a 16 year old school boy and being sucked by another cute 16 year old and a 12-year-old boy!

Josh knew he wouldn't last long. He had always wanted to experience sex with a young boy but had never had the opportunity until today, so he was on a high peak of excitement and very close to shooting.

He groaned and started to shoot over Sam and Andy. Thick spurts of spunk shot out of the 22 year old's cock head and coated the boys' faces. It was in their hair and ran down thickly from their foreheads over their cheeks to their chins where it dropped onto the path. His 7.5" cock started to droop slightly and both teenagers vied with each other to catch the last drops of spunk.

"Thanks guys!" Josh said grinning. "That was awesome and you David – wow!! What a job you did on my ass, thanks for that." He added.

Andy stood up and grinned at the man and the two boys and said, "I'd better catch a shower before mom gets home, thanks guys see you again, I hope!" And started to head off when David stopped him.

"Andy what happened with Joey today I was here for his lesson and he never showed. Is everything OK?" He asked.

Andy stopped and turned and said "Sorry David did he not tell you he'd to go somewhere with Ryan this afternoon? He said he was going to speak to you this morning at school, I'm sorry."

"Hey it's OK he must've forgot to tell me but it's cool, I found some other stuff to do anyway! I'll see him tomorrow." He said and burst out laughing.
